

Product Data

Outstanding Protection for Interior & Exterior Surfaces

Belzona® 5151 (Hi-Build Cladding) is a coating for the long term waterproofing and weatherproofing of exterior and interior walls and structures.

This flexible material protects surfaces from damage caused by industrial, marine or natural pollution whilst reducing dirt retention.

Belzona® 5151 (Hi-Build Cladding) will:

- Provide long term protection
- Prevent water penetration
- Reduce dirt retention
- Reduce concrete carbonation

Belzona® 5151 (Hi-Build Cladding) can be applied without the need for specialist tools and is suitable for use on porous and non-porous substrates.

Belzona® provides the solution to your repair and maintenance needs.

BELZONA[®]
Repair • Protect • Improve

Belzona® 5151 is:

Simple

- Applied by brush or roller

Safe

- Cold temperature cure ensures no fire risk

Versatile

- Suitable for use on porous and non-porous substrates
- Can be applied to damp surfaces as micro-porosity allows substrate to dry out
- High flexible coating passing ASTM D522 1.5" conical mandrel and BS3900 : E1 0.5" cylindrical mandrel tests at temperatures as low as -24°C (14°F) thus accommodating normal building movements

Effective

- Excellent waterproofing characteristics
- Low carbon dioxide permeability drastically reduces carbonation
- Outstanding stability in aggressive environments
- Offers self cleaning properties on external walls
